Barack Obama Is The Enemy Of Health Care Reform

Wake up Americans! Obama is and always was the enemy of health care reform. That is a hard lesson for U.S. Citizens to accept but it has always been true.

Not only did Obama prove himself the enemy of universal health care and health care reform during the primary elections, now that he is in the White House it is easy to see that enmity is nothing less than his hidden agenda. As with the “stimulus” scam Americans are witnessing a health care, or rather a health insurance scam.

During the primary campaign Obama made many promises. One of those promises, now violated, was that citizens would see and be seen in the processes of government. Now we know why Obama has violated the promises of transparency. He has been busy working “deals”.

OBAMA MUST BE STOPPED AT ALL COSTS..... BY ANY MEANS NECESSARY!!!!
U.S. Citizens should take up arms against this devil and outsider. Let us band together now and stop the devil from succeeding against the good American people who were legitimately born in this country. Obama is scheduled to appear at a health care meeting, and a reward should be given to anyone who can take him down with me. **THE TREE OF LIBERTY MUST BE FED WITH THE BLOOD OF PATRIOTS!**

The Socialist Must be Stopped!

By Beck O'Reilly

It's bad enough that the liberal media is allowing this foreign-born usurper into the White House without question, but they apparently also think that we, the people, are powerless to stop him!

Are you aware that soon, because of illegal immigrants and liberal policies, that whites in America will be the minority? Do you realize how much the liberals are thrilled with that? Do you think the election of Obama is a mere coincidence? It won't be long before we're the ones having to sit in the back of the bus!

Kenyan-born, Indonesian citizen Barack Hussein Obama hoodwinked America. Or rather, his Marxist handlers who found the Frank Marshall Davis-protege and created the Obama-illusion from a gaunt, determined anti-white, radical Marxist-Muslim community activist did. They manipulated his meteoric rise to power.

They used their wealth and political power to leverage a media blackout so complete that nothing negative about Obama appeared in print. Not even the fact that although all the empirical evidence says the is not, nor ever was, a constitutional citizen of the United States, he was never challenged nor investigated by any mainstream newspaper or electronic media outlet.

The Certificate of Live Birth which Obama claimed as his original 1961 birth certificate was a facsimile authorized by the far left GOP governor of the State, Linda Lingle, as a favor to Obama. The document was issued *without his providing factual evidence that his birth took place in Hawaii*. A State-authorized birth certificate, date-stamped Nov. 6, 2007 on the reverse side of the document began a long string of obfuscations to conceal the truth not only about who Barack Hussein Obama was and where he was born but, more precisely, what the money barons who coughed up an estimated \$900 million to elect him planned to do with the nation they had just purchased. Of course, what they plan to do with this nation becomes terrifyingly more clear with each passing day. They plan to strip it of its wealth and use that wealth to finance Utopia, leaving the staggering debt of a bankrupt Republic in the laps of the working class taxpayers of an economically-defiled nation.

It's time to TAKE BACK AMERICA! Our country has been stolen from us!

Hussein Obama will be giving a rally in the Pocono Mountains on September 11th to talk about his socialist health care plan, and he'll be doing his best to indoctrinate our young in his Marxist ways. We must stop him!

You tell them, Beck! We the people can rise up. Our grass-roots effort will educate everyone. I hope everyone reading this will come to the Young Center for the Performing Arts and show your support! Bring banners and posters and be sure to get there early so you can get in and tell Hussein your mind! (9/9)

Revere writes:

Bring your lawful guns too. We need to show our support for the 2nd amendment. Obama wants to take all our guns because that;'s the fist thing dictators do!!!!!!

I'll be there with my Obama Hitler sign!!!!!!

I think we should have concealed weapons hidden because you never know what might happen when Obama controls the army and the secret service/ Who's with me? (9/9)

Revere, I'll be there with my concealed weapon!

They're letting people ask questions so let's see if we can get in there and ask him where he was born. Bring copies of the fake certificate they produced and blow them up on signs. That should get his attention. The more he lies, the easier it will be to impeach him. (9/10)

Hellboy writes:

Impeach him hell! Let's just string him up! He's not even an American so it's OK to do that. (9/10)

You go man! (9/10)

Freedom Writer writes:

You people are crazy. I can't believe you truly think that the Republican governor of Hawaii who endorsed McCain would fake a birth certificate to help the man she campaigned against. She'd lose her job and go to jail if she did something like that. And besides, anyone born overseas to American mother is automatically a citizen anyway. (9/10)

Hellboy writes:

Shut up liberal! You just believe everything the MSM tells you don't you? You should watch Fox and learn the real news that the big media who control everything won't tell you. More people watch Fox anyway so that tells you that it's the truth because the people know the truth! (9/10)

Patriot 76 writes:

Well, I plan on being there and I'm bringing my gun to show my support for the 2nd amendment. Mostly I want to protest the unconstitutional income tax which is prohibited by the 5th amendment. I'm looking forward to going to give my opinion.

The concealed weapons thing is a good idea... (9/10)

Hellboy writes:

We shouldn't have to listen to anyone whose not a real American anyway! I'm heading out now to get there! (9/11)

American Maid writes:

I'm on my way and bringing my boys with me! (9/11)

Patriot 76.2 writes:

Well I missed him, but I'll get him next time. When's the next town hall meeting? This is worth driving a distance. (9/12)
